

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (canceled).

Claim 2 (currently amended): ~~Device~~ The device according to claim ~~+~~ 14, wherein coupling means are provided for supply lines running in the individual components.

Claim 3 (currently amended): ~~Device~~ The device according to claim ~~+~~ 14, wherein the conveying ~~mechanism is~~ mechanisms comprise a mechanism for overhead conveyance of the motor ~~vehicles~~ vehicle.

Claim 4 (currently amended): ~~Device~~ The device according to claim ~~+~~ 14, ~~wherein the device encompasses~~ further comprising a final assembly section.

Claim 5 (currently amended): ~~Device~~ The device according to claim 3, wherein ~~the device includes a~~ said vehicle test rig comprises a roller, braking or antilock brake system (ABS) test rig comprising a plurality of motor-driven elements; the motor vehicle having vehicle wheels ~~may be~~ set in rotation or braked by said motor-driven elements ~~of a roller, braking and ABS test rig, said elements~~ acting laterally upon the wheels ~~from the side~~.

Claim 6 (currently amended): ~~Device~~ The device according to claim 5, wherein the motor vehicle has tires and the motor-driven elements act on the tires.

Claim 7 (currently amended): ~~Device~~ The device according to claim 5, wherein the motor vehicle has wheel rims and the motor-driven elements act on the wheel rims.

Claim 8 (currently amended): ~~Device~~ The device according to claim 5, wherein the motor vehicle has wheel hubs and the motor-driven elements act on the wheel hubs.

Claim 9 (currently amended): ~~Device~~ The device according to claim 4, ~~wherein means are provided~~ further comprising means for automatically performing acceleration and braking operations.

Claim 10 (currently amended): ~~Device~~ The device according to claim 4, ~~wherein means are provided~~ further comprising means for automatically performing ~~additional~~ selected function tests.

Claim 11 (canceled).

Claim 12 (currently amended): ~~Device~~ The device according to claim 10, ~~wherein~~ further comprising a branch to a rework station ~~is provided~~.

Claim 13 (canceled).

Claim 14 (new): A device for final assembling of motor vehicles comprising:

- (a) a plurality of conveying mechanisms for assembling a motor vehicle in a final form;
- (b) a plurality of assembly units for the motor vehicle; and
- (c) a vehicle test rig in which the motor vehicle is suspended;

wherein the conveying mechanisms and the assembly units comprise individual, transportable, modular, interconnectable components installable on a flat surface without using a pit.

Claim 15 (new): A device for assembling motor vehicles comprising:

- (a) a plurality of conveying mechanisms for assembling a motor vehicle, said plurality of conveying mechanisms comprising a conveying mechanism for overhead conveyance of the motor vehicle following assembly out of an assembly hall; and

- (b) a plurality of assembly units for the motor vehicle;

wherein the conveying mechanisms and the assembly units comprise individual, transportable, modular, interconnectable components installable on a flat surface without using a pit.
